

MARKSMAN TRAINING SYSTEM ST-2

As you probably know, we have acquired a shooting simulator that will be installed on July 11 and 12, in the front part of the kennel already under construction. Thanks to a screen 3 meters high by 8 meters wide and double projectors, images are incredibly realistic. You will feel as if you were out in nature! The only one of its kind in Canada, this simulator will give the beginner an opportunity to learn about shooting with an instructor. An intermediate shooter will find a tool to perfect his skill, and the expert will find pleasure in improving his technique and pushing back his limits. As soon as the end of July, it will be possible to reserve practise time by contacting the club or through our website.

FINALLY, we have answered your expectations: you will be able to enjoy a good lunch before or after your shooting activities! Our chef, **Mr. François Paré**, has prepared a delicious menu, in cooperation with our Director, Administration and Business Development, Mr. Alain Beaulac, who was the owner of a renowned restaurant for several years. Our restaurant, La Bartavelle, will soon also be open for dinner on Thursday and Friday evenings. Visit our website to find out about our opening hours!

Crostini with wild mushrooms,
Noyan cheese and delicate greens

Veal and mozzarella arancini,
arrabiata sauce

BBB chicken wings

Smoked meat, yellow mustard and pickle

Pulled pork mini-burger
with Jack Daniel's sauce
